

EDUOFFSHOREWIND

EVENT MISSION

The II Education careers fair EDU OFFSHORE WIND Gdańsk 2024 is organized with secondary school students in mind: technical and vocational schools as well as high schools in the Pomeranian Voivodeship who are at the initial stage of their career path.

Young people will be introduced to a new labour market for the offshore wind sector under Polish conditions. The event is also dedicated to the students.

Purpose of the event

-  presentation of professional opportunities offered by development of offshore wind energy (MEW)
-  making the participants of the event aware of what competencies are needed and how they can be acquired
-  transfer of knowledge and benefits of employment on offshore wind farms
-  social purpose - information campaign on OWF

Our vision

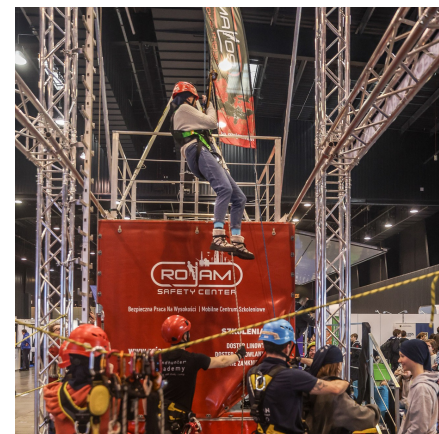

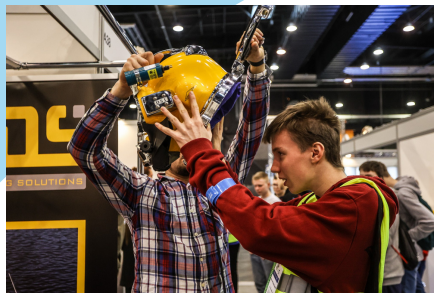

-  interactive events encouraging young participants to become interested in a new sector in Poland
-  stands with presentation of know-how and offers of internships and apprenticeships from employers
-  interactive attractions such as climbing walls and VR simulators
-  CASE STUDIES - meetings with people from the offshore wind energy sector who will talk about their experience in the industry

THE FIRST EDITION WAS A GREAT SUCCESS
